Know Your Choices When Planning Your Retirement¹

457(b)

- Employer-sponsored Deferred Compensation Plan (DCP)
- Allows you to save pre-tax dollars, reducing your taxable income
- Contributions grow tax-deferred until they are withdrawn

403(b)

- Tax-Sheltered Account (TSA)
- Allows you to save pre-tax dollars, reducing your taxable income
- Contributions grow tax-deferred until they are withdrawn

Roth 403(b)

- Tax-Sheltered Account (TSA)
- Contributions are made after taxes have been taken from your paycheck
- Allow earnings to grow tax-free²

When it's time to retire, will your pension be enough? Some experts estimate that CalSTRS and CalPERS will only make up 55-60% of your pre-retirement income.³ For many school employees, you'll need a plan to bridge that gap — we can help.

	457(b)	403(b)	Roth 403(b)
Taxes	Contributions are made pre-tax. Taxes are paid on withdrawals, typically in retirement when you will likely be in a lower tax bracket.		Contributions are made after taxes have been paid, and withdrawals taken within the limits of your plan are tax-free. ²
Distributions	You may withdraw from your 457(b) when you leave your employer, at age 59 1/2, or in the case of death, disability or unforeseen emergency.	You may withdraw from your 403(b) when you leave your employer, at age 59 1/2, or in the case of death, disability or eligible hardship. ⁴	Your account must have been open for five consecutive years AND you are either 59 1/2, have left your employer, or in the case of disability or death. A hardship distribution may also qualify.
Loans	A loan may be taken while you are still employed. Availability, repayment terms and interest rates are determined by the individual investment provider.
